

Continental Oak Hamilton Brown Hardwax

Pre-finished by hand gives the Oak a pure blended cool brown patina. The "Hamilton-effect" darkens the Oak deep into the surface with a natural matte look and feel. This finish works best on wider planks or larger square or herringbone patterns.

Species	Continental (European) Oak
Finish*	Hardwax-Oil
Origin	European Oak (Quercus Robur) mainly over 80 years old. Grown in responsibly managed central European forests.
Maintenance	This finish can be cleaned regularly using our Natural Oil Soap, which feeds and strengthens the surface over time.
Spot repair and Refinish	Professional maintenance with our Maintenance Oil will make this finish richer and protect it over time. Spot repairs are possible with our touch-up kit.

Structure**

Engineered: 19.5 +/- 0.5 mm, top layer 4.5 +/- 0.5 mm

Engineered: 15.5 +/- 0.5 mm, top layer 3.7 +/- 0.3 mm

Traffic resistance

Patina change in time

Recommended patterns

*) Whilst our sampling and photography endeavours to show grain and colour as natural as possible, a sample or photo are never an exact representation of an entire floor. Wood being a natural material, variation in colour and grain exists, floors may change appearance over time through exposure to light, wear and tear and maintenance.

**) Prefinishing of solid floors may be subject to more strict recommendations for limited board dimensions and climate control. Read further on the next page.
